

Creation of Relationship

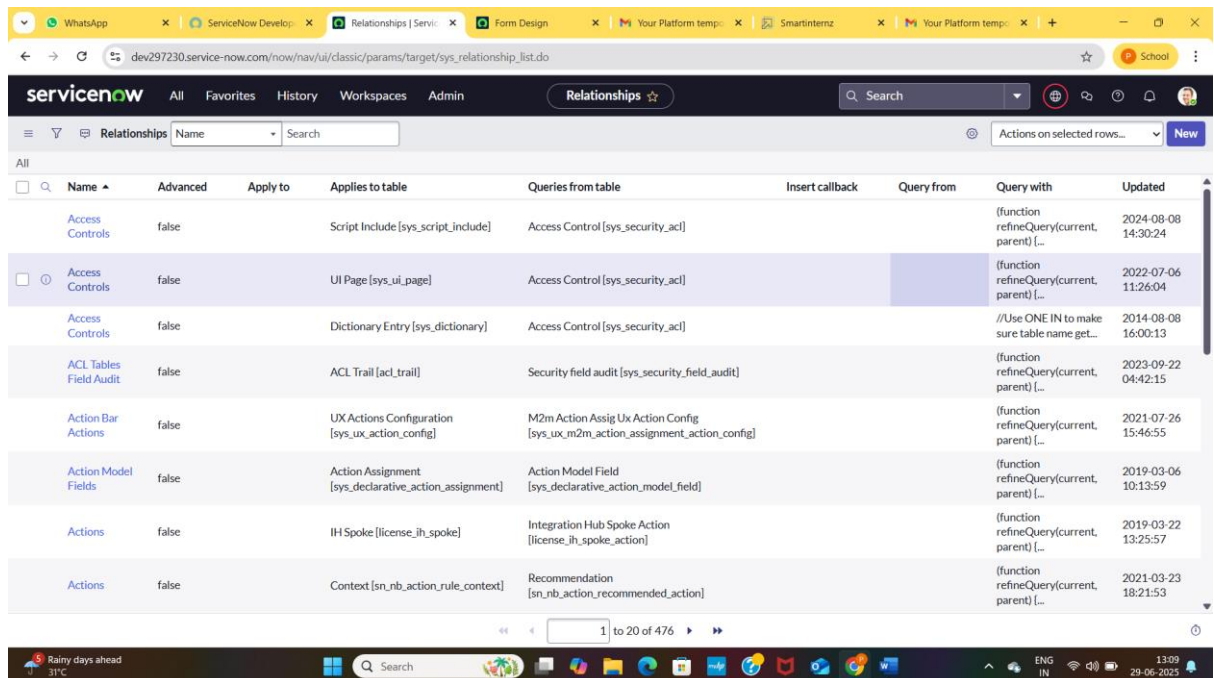

Team Id	LTVIP2025TMID29041
Project Name	Calculating family expenses
college	Kandula Lakshumma Memorial College of Engineering for Women
course	Computer Science Engineering

Creation of relationships:

• Relationship Between Family Expenses and Daily Expenses Tables

➤ Establish a logical link between each daily expense and the corresponding family member, allowing for better data organization, tracking, and reporting of expenses by individual or household.

➤ Go to All >> In the filter search for Relationships >> Open Relationships

	Name	Advanced	Apply to	Applies to table	Queries from table	Insert callback	Query from	Query with	Updated

Relationship - Daily Expenses

Name: Daily Expenses

Application: Global

Advanced: ☐

Applies to table: Family expenses [u_st_u_auto_populated]

Queries from table: Daily Expenses [u_daily_expenses]

This script refines the query in current that will populate the related list. For more information about it, its parameters and control variables, see [the documentation](#). See also the article about the [recommended form of the script](#).

Query with ☐ Turn on ECMAScript 2021 (ES12) mode

```
1 (function refineQuery(current, parent) {
2
3   // Add your code here, such as current.addQuery(field, value);
4
5 })(current, parent);
```
